COLORED LOGO: This logo uses the Museo Slab typeface for a classic yet clean modern feel for Westbury Farm. The color is simple; red and white to strengthen the farm/barn design. An iconic red barn was designed to help communicate the history of the farmland along with the windmill and silo elements.

MONOCROMATIC LOGO: This Westbury Farm logomark has all colors removed for single color applications and to show that the design still communicates all design choices as a single color.

2 X .5 INCH LOGOMARK: this logo is an example of how the details translate at this small size for various branding materials and printing purposes.
